Project KILR51 1951 Studebaker

Work hasn't been as constant on KILR51 as we would like, but there has been a little progress made with the front nose panel all smoothed off and looking much better thanks to Ivan Hans. The next step is to continue on the body and bolting in the VE Commodore front seats that we sourced from Les Lawry at Holmwood Auto Wreckers in Cowra. If you have a business who would like to become a build partner in the most unusual street car in Australia, contact Paul now!

There's only one place to be over the weekend of May 14th and 15th and that's Rosehill Racecourse in Sydney for the Hot Rod and Custom Expo. Not only will you see the best cars and bikes, but you'll also be able to meet the custom car legend Chip Foose and also go into the running to win a 1948 Chevy Pick up - just for visiting the show! There's free parking at the door too! Why would you want to be anywhere else? For regular updates, log on to www.hotrodandcustom.com.au
